

SANJEEDA KHATOON

Software Developer (Java | Full Stack)

sanjeedak.cse@gmail.com | (+91) 7417033795 | Hyderabad, India

GitHub: <https://github.com/sanjeedak>

PROFILE SUMMARY

Software Developer with 3+ years of experience in building and deploying scalable web applications across Banking IT, Healthcare IT, and E-commerce domains. Skilled in Java, Spring Boot, Microservices, REST APIs, Node.js, React.js, relational databases / SQL, JWT, OAuth, and AWS, with strong experience in end-to-end development, cloud deployment, and production support.

WORK EXPERIENCE

Software Developer – Koninkryk Technology Solutions Pvt. Ltd. (Shopzeo)

Aug 2025 – Present | Bangalore

- Full Stack development using Node.js, React.js (Vite), MySQL, and REST APIs
- Independently designed and implemented the complete User Panel
- Contributed to Admin Panel and Seller Panel development including backend APIs
- Designed and optimized database schemas and SQL queries
- Built and tested APIs using Postman
- Managed application deployment and server configuration on AWS EC2
- Used Git for version control and collaborative development

Support Engineer – PNV Techno Consulting Services (Axis Bank / Montran Corporation)

Jan 2023 – Nov 2023 | Mumbai

- Developed and maintained NEFT & RTGS modules using Java, Spring Boot, Microservices
- Built React.js dashboards for responsive and user-friendly interfaces
- Integrated SFTP & IBM MQ for secure, real-time transaction processing
- Deployed applications on AWS Cloud (EC2, S3, RDS, Auto Scaling, Load Balancer)
- Optimized SQL queries and improved database performance
- Resolved production issues with RCA and implemented permanent fixes
- Delivered client-requested enhancements (CRs) to boost system stability
- Worked in Agile (Scrum) environment with cross-functional collaboration

Software Developer – SpinSci Technologies Private Limited

Nov 2021 – Jun 2022 | Hyderabad

- Designed, developed, implemented, tested, and supported healthcare IT solutions
- Utilized Mirth Connect for EPIC, FHIR, and REST API integrations
- Worked on full stack development using Java, Spring Boot, React.js, PostgreSQL
- Created and tested APIs using Swagger, Postman, and Newman
- Applied SonarQube for code quality checks and secure application development

Junior Java Developer – Saish Technologies Pvt. Ltd.

Oct 2018 – Apr 2020 | Pune

- Developed applications using Java, Spring, Hibernate, JavaScript, SQL Server
- Designed APIs in collaboration with back-end developers
- Interacted with clients for feedback and addressed concerns
- Optimised system performance and mentored junior developers

PROJECTS

AXIS GPS – RTGS & NEFT

Worked on NEFT & RTGS payment modules for Axis Bank GPS project. Developed backend components using Java and Spring Boot, integrated IBM MQ and SFTP, handled SQL queries, production support, log analysis, and ensured compliance with banking standards.

Shopzeo

Full Stack development using Node.js, React.js (Vite), MySQL, and REST APIs. Independently handled User Panel development, contributed to Admin & Seller Panels, performed database design, API testing, and deployment on AWS EC2.

EDUCATION & CERTIFICATIONS

PG Diploma – Centre for Development of Advanced Computing (CDAC), Hyderabad (2021)

B.Tech/B.E. – Dr. A.P.J. Abdul Kalam Technical University, Lucknow (2018)

AWS Partner: Accreditation (Business)
