3 Years 9 Months of experience

PROFILE SUMMARY

Software development professional around 4 years of experience in developing & designing web applications using Java, Spring Boot, Microservices, ORM & related technologies. Adept at developing & deploying complex systems, webservice & databases.

WORK EXPERIENCE

Software Developer

Koninkryk Technology Solutions Pvt. Ltd.
(ShopZeo)

Aug 2025 - Present

- Engineered robust backend services and RESTful APIs using Node.js to optimize ShopZeo e-commerce workflows.
- Designed and implemented the User Panel, while collaborating on the development of Admin and Seller panels.
- Integrated end-to-end Order Management, Payment Processing, GST compliance, and Razorpay payment gateway modules.
- Developed and maintained APIs for efficient order lifecycle management and real-time payment status tracking.
- Managed seamless application deployments on AWS EC2 instances and performed comprehensive post-deployment validation.

Software Engineer

PNV Techno Consulting Services

Jan 2023 - Nov 2023

Project: AXIS GPS (RTGS & NEFT Payment System)

- Worked on AXIS GPS, a Java-based platform used for real-time RTGS and NEFT transactions.

KEY SKILLS

Java

Spring Boot

Microservices

Spring Cloud

Spring Data JPA / ORM

Spring Security

REST APIs

Multithreading & Concurrency

JUnit / Mockito

Maven / Gradle

Kafka

IBM MQ

Docker

AWS (EC2)

PostgreSQL

MySQL

Mirth Connect

CERTIFICATION

AWS Partner: Accreditation (Business)

Core Java Certification

PGDAC, CDAC Hyderabad

PROJECTS

ShopZeo

12 Months

Tech Stack: Node.js, Express.js, React.js, MySQL, Razorpay, AWS EC2

Description: Developed a scalable e-commerce application, independently designing the User Panel and building secure backend APIs for Order Management and real-time payment gateway integration.

Axis GPS

24 Months

Tech Stack: Java, Spring Boot, Microservices, Kafka, IBM MQ, SQL Developer

Description: Contributed to a high-volume enterprise banking platform for real-time RTGS

- Developed Spring Boot microservices for transaction validation, routing, and settlement.
- Integrated Kafka and IBM MQ for asynchronous, event-driven transaction processing.
- Applied Factory, Singleton, and Observer patterns to improve maintainability and event handling.
- Investigated application issues, identified root causes, and implemented code-level fixes.

Software Developer

SpinSci Technologies Pvt. Ltd.

Nov 2021 - Jan 2022

- Engineered robust Java and Spring Boot backend services to optimize patient communication platforms such as Patient Assist, Patient Notify, and Patient Engage.
- Designed and implemented seamless integrations using Mirth Connect, employing FHIR standards, EPIC systems, and RESTful APIs to ensure secure and efficient data exchange.

Junior Java Developer

Saish Technologies Pvt. Ltd.

Oct 2018 - Apr 2020

- Developed and maintained a Java-based banking application specializing in refund processing and reconciliation.
- Designed and implemented robust backend components to optimize refund workflows and improve system reliability.
- Administered database interactions and optimized transaction workflows to ensure data integrity and accuracy.

and NEFT transactions, developing microservices for secure transaction routing and settlement.

Patient Notify, Patient Assist, Patient Engage

24 Months

Tech Stack: Mirth Connect, HL7, FHIR API, EPIC API, Java, Spring Boot, React.js, PostgreSQL

Description: Engineered robust clinical data exchange and patient engagement platforms (Patient Assist, Notify, Engage) ensuring compliance with healthcare interoperability standards.

EDUCATION

PG Diploma - PGDAC, CDAC Hyderabad

2021

Centre for Development of Advanced Computing (CDAC)

B.Tech/B.E. - Computers

2018

Dr. APJ Abdul Kalam Technical University, Lucknow
